

Operating Temp(°C)	Fuel consumption	Distance(5°C)
40	12	18
45	14	13
50	15	8
55	18	3
60	20	2
65	22	7
70	25	12
75	27	17

Let $K=3$

$$2, 3, 7 \rightarrow \frac{18+20+22}{3} = 20 \text{ L/hr.}$$

∴ Fuel consumption at 58°C is 20 L/hr
